Version Control (E.G., Git)
Cross-Browser Development
Web Performance Optimization

OTHER SKILLS

WordPress
Digital Marketing

EXPERIENCE

2021-2023 UI/UX DESIGNER

Explore IT Solutions / Kozhikode, Kerala.

My tenure at Explore IT Solutions was marked by my leadership in UI/UX design and front-end development. I spearheaded the creation of intuitive and visually appealing interfaces, employing industry-standard tools like Figma to conceptualize and prototype designs rooted in user-centric principles. These designs seamlessly transitioned into functional web applications through my expertise in HTML, CSS, and JavaScript, ensuring responsive and cross-browser compatibility. Collaborating closely with multidisciplinary teams, I orchestrated a streamlined process, fostering synergy between design and development. This collaborative effort led to the successful delivery of products that not only met but exceeded user expectations, resulting in enhanced user engagement and satisfaction metrics.
